<b>Editor</b>	Prof. Larry Stapleton (as above)		

Dear colleagues,

We are pleased to inform you that your event has obtained IFAC approval.

The list of sponsoring and co-sponsoring Technical Committees and their IPC representatives is given in the attachment.

For further information concerning organization of IFAC events please visit our homepage [www.ifac-control.org](http://www.ifac-control.org) where you can download the booklet "**Procedure for Organizers of IFAC meetings**".

Procedure for Organizers of IFAC meetings: <https://www.ifac-control.org/events/organizer-guide>

IFAC has worked with a design firm to develop a new logo as well as establish a set of guidelines that apply to the use of the IFAC logo. This is relevant for a variety of applications, including: www sites, letterhead, books, and social media. One can find the complete **set of guidelines on using the IFAC brand** on our webpage:

<https://www.ifac-control.org/events/ifac-brand-guidelines/view>

**Please publish the following paragraph in all paper announcements and in the final event program.**

**Copyright conditions:**

*"All publication material submitted for presentation at an IFAC-sponsored meeting (Congress, Symposium, Conference, Workshop) must be original and hence cannot be already published, nor can it be under review elsewhere. The authors take responsibility for the material that has been submitted. IFAC-sponsored conferences will abide by the highest standard of ethical behavior in the review process as explained on the Elsevier webpage (<https://www.elsevier.com/authors/journal-authors/policies-and-ethics>), and the authors will abide by the IFAC publication ethics guidelines (<https://www.ifac-control.org/events/organizers-guide/PublicationEthicsGuidelines.pdf/view>).*

*Accepted papers that have been presented at an IFAC meeting will be published in the proceedings of the event using the open-access IFAC-PapersOnLine series hosted on ScienceDirect (<https://sciencedirect.com/>). To this end, the author(s) must grant exclusive publishing rights to IFAC under a Creative Commons license when they submit the final version of the paper. The copyright belongs to the authors, who have the right to share the paper in the same terms allowed by the end user license, and retain all patent, trademark and other intellectual property rights (including research data)."*

**The use of PaperCept as the standard electronic system for handling the paper submission and review process, as well as the preparation of proceedings is required for all IFAC approved events.**  
<https://ifac.papercept.net/conferences/scripts/start.pl>

Please notice that the proceedings of the event can only be published via IFAC-POL when all papers in the proceedings have their copyright transfer forms on the PaperCept database; even the omission of one copyright form for a single paper will prevent IFAC from publishing the proceedings.

Please forward to us the pdf file of the **1st Announcements/Calls for Papers, 2nd Announcement/Advance Programs and Final Program** for archiving purposes.

When you have established the **website** of your event, please e-mail the IFAC secretariat the url address, which will be published in the IFAC Newsletter and on the IFAC www-site. Please remember to include a link to the IFAC affiliate information <https://www.ifac-control.org/about/participation> from the event homepage.

We have a **large database of IFAC affiliates** - your possible conference participants. We will be happy to contact those people with an interest profile that is in line with your meeting. To this end, e-mail us

- a) The appropriate keywords that describe your event (a list of IFAC keywords is provided in the enclosure).
- b) The correct reply-to address where you want to receive information from affiliates that wish to contact you.

With this information we will forward your Call for Papers (via a separate IFAC event e-mail address), and other announcements to selected affiliates (maximum two e-mails).

Please notice that **any change in the registration fee and date or location** of the event requires advance **approval** to be sought through the IFAC Secretariat.

To close the formal process of event approval, please

Read, sign and return the letter which you will shortly receive from the IFAC Editor-in-Chief of IFAC-PapersOnLine, accepting the publication conditions.

Do contact the IFAC Editor-in-Chief of IFAC-PapersOnLine before anything is dispatched to potential authors.

The Editor-in-Chief of IFAC-PapersOnLine is **Prof. Juan de la Puente**. His e-mail is [juan.de.la.puente@upm.es](mailto:juan.de.la.puente@upm.es)

To use PaperCept, and negotiate the cost for using the service, please contact **Prof. Pradeep Misra**  
[p.x.misra@gmail.com](mailto:p.x.misra@gmail.com)

If you need any further advice or assistance, please do not hesitate to contact us.

Sincerely yours,

Katharina Willixhofer (Ms.Mag.)
